Toronto High Park FC
Active Littles Program

PROGRAM OVERVIEW

Our Active Littles program is designed for our youngest soccer players to develop their physical literacy skills and have their first ever soccer experience. The sessions are facilitated by our professional technical staff all of whom are certified by Ontario Soccer and have a passion for working with toddlers and young children.

Our Active Littles program **requires full parent participation**. We ask that families come dressed and ready to hop on the pitch and help their future soccer stars through the activities guided by our coaches.
